

The signs of abuse may be right under your nose.

A child's life may depend on you recognizing signs of abuse. Be alert to the following signs which may indicate abuse, and report suspected abuse immediately:

1. Nervousness around adults
2. Difficulty making friends
3. Aggressive behavior
4. Secretive about home life
5. Unable to concentrate at school
6. Arrives at school early or stays late
7. Low self esteem
8. Finds physical contact frightening
